

The Every Ball Counts® Assessment Report

Used by 8 of the Top 25 Players including the FedEx Champion

The EBC Assessment Report is an MRI of your Scoring Average

- The Every Ball Counts® assessment allows Players to compare their skills against the Tour.
- Players can readily identify where they stand in the 19 skills attributed to scoring.
- These are the same skills identified by the PGA Tour ShotLink statistics that are essential to scoring in golf.
- Players will see their results for specific skills and see how a change in that skill set will enhance scoring average and handicap.
- Results are shown in Scoring Average and Strokes Gained.
- You will learn how to improve your skills for immediate scoring improvement.
- Player and Coach now have a precise roadmap to lower scores
- The EBC Assessment shows colleges exactly how you score, like the SAT, but fun!

To learn more about how we are lowering scores visit EveryBallCounts.com
