

The Every Ball Counts® Scoring Average Report

Used by 8 of the Top 25 Players including the FedEx Champion

The EBC Assessment Report is your conduit from your ShotLink data to a lower Scoring Average

With the EBC Report see how to:

- Precisely lower your scoring average
- Increase your earnings
- Design a measurable practice plan to achieve your goals

Player and Coach now have a precise roadmap to lower scores

EBC has developed a proprietary algorithm that looks at 900 data points from ShotLink. Once a player has their “MRI” of how they comprise their scoring average they can see where they need to improve. Coach and player can put together a measurable practice plan to improve these skills, which will lead to lowering your scoring average.

Simply contact a Player Relations staff member or email your PGA TOUR links staff member to request your personal EBC Report
